In compliance with the Rules and Regulations Governing 90 Day Construction Permits (NJAC 7:1C-1.1 et seq.) this semi-monthly publication contains a list of construction permit applications recently filed or acted upon by the DEP. Using the Application Milestone Codes located on the inside front cover, interested persons can determine the status of Coastal Area Facility Review Act (CAFRA) permits, Federal Consistency Activity permits, Freshwater Wetlands Individual and Statewide General permits, General Groundwater Petroleum Products Cleanup permits, Open Water Fill permits, Solid Waste Facility permits (SWF), Flood Hazard Area (FHA) permits, Tidal Wetlands permits, Waterfront Development permits and Treatment Works Approvals (TWA). In addition, this publication lists status of Highlands application and Highlands Applicability Determinations.

In addition, a calendar of Events of Interest and a Schedule of Public Hearings is provided. The public hearings listed do not, however, constitute an official notice. Environmental Impact Statements acted upon during the period are also shown. Additional information concerning the permit applications can be obtained by calling the project manager at the appropriate office listed on the inside back cover.

Public Hearings are held for the purpose of obtaining input and reaction to a proposed rule, regulation, or new program. Some hearings may be mandated by law. Generally, their scope of impact is statewide or of broad general interest and open to the public.

Contested Case Hearings are held between the State and a particular party involving an application, enforcement violation or an appeal. Interest in these hearings is generally limited to those directly involved.

DEP Events of Public Interest include public hearings, council meetings, workshops, public information meetings, and exams.

FLOOD HAZARD AREA APPLICABILITY DETERMINATION

TAKE NOTICE THAT THE DEPARTMENT OF ENVIRONMENTAL PROTECTION has issued a letter in response to an appeal of Flood Hazard Area Applicability Determination 1013-12-0001.1 APD 160001, which resulted in a remand back to the Department for further evaluation. Upon remand, the Department could not definitively conclude whether a flood hazard permit is required or not. As a result, the Department issued a letter advising the applicant to submit for a flood hazard area verification. Interested parties wishing to view a copy of the letter may contact the Department at hamptonfarmcomments@dep.nj.gov

**PUBLIC NOTICE OF INTENTION TO EXTEND LANDFILL POST-CLOSURE CARE PERIOD FOR
THE TOWNSHIP OF OLDMANS SANITARY LANDFILL**

The New Jersey Department of Environmental Protection (“Department”) hereby issues this public notice, pursuant to N.J.A.C. 7:26-2A.9(c)10, of its intention to extend the post-closure care period for the Township of Oldmans Landfill, located north of Pedricktown Woodstown Road in the Township of Oldmans, Salem County.

The Township ceased operating the subject landfill no later than April 21, 1988, and the landfill closure was complete on March 15, 1994. The Department, through the Solid Waste Rules at N.J.A.C. 7:26-2A.9, requires that closed landfills be maintained and monitored during their post-closure care periods, which continue for 30 years after closure. However, the Department may extend the post-closure care period upon a finding that such an extended period is necessary to protect human health and/or the environment.

Based on data generated during the post-closure care period and a review of the most recent post-closure evaluation report, the Department has found that the landfill will require post-closure maintenance and monitoring beyond the initial post-closure care period to protect human health and the surrounding environment. Based on these findings, the Department has determined that it is necessary to extend the post-closure care period for the landfill. The Department intends to extend the post-closure care period for ten (10) additional years beyond the original 30-year post-closure care period, until March 15, 2034. During this extended post-closure care period, the Department will require maintenance and monitoring of the landfill to continue in accordance with N.J.A.C. 7:26-2A.9 and the effective closure and post-closure plan approval.

If anyone has questions or comments concerning the Department’s intention to extend the post-closure care period of the landfill, please send those questions or comments to the following address:
